

# Abdulaziz Alsarraj

## Front-End developer

**Location:** Syria, Homs

**My Portfolio:** <https://abdulaziz-alsarraj-portfolio.vercel.app>

**Phone:** +963967841647

**LinkedIn:** <https://www.linkedin.com/in/abdulaziz-alsarraj>

**Email:** [abdulazizalsarraj77@gmail.com](mailto:abdulazizalsarraj77@gmail.com)

**GitHub:** <https://github.com/Abdulazizalsarraj>

## SUMMARY

---

Front-End Developer skilled in crafting responsive, high-performance web apps with React, Next.js, and TypeScript. Expert at translating designs into clean, efficient code and optimizing user experiences. Fast learner, collaborative team player, and passionate about the latest web technologies.

## WORK EXPERIENCE

---

### **Front-End Developer Intern: Sputix | Nov 2024 – April 2025**

- Collaborating with the development team to build a scalable web application for [briefly describe the project, e.g., e-commerce, dashboard, etc.].
- Contributed to building reusable components and maintaining code quality using React.js
- Assisted in implementing state management using Redux and React Router for seamless navigation and data flow.
- Worked within Scrum methodology, including daily stand-ups, sprint planning, and code reviews, ensuring timely project delivery.
- Gained hands-on experience in integrating third-party APIs and optimizing application performance

## Projects

---

### **Project Name: AI Fitness Trainer**

**Description:** AI Fitness Trainer — Innovative web application leveraging Next.js, Tailwind CSS, shadcn, Clerk, Convex, Gemini AI and Vapi to deliver an AI-powered personal training experience. Users connect via real-time voice calls with a smart coach that analyzes goals, fitness level and dietary preferences to generate tailored workout regimens and meal plans. Secure authentication, scalable data management and a responsive UI ensure a seamless, personalized journey toward optimal health and performance.

(Live Demo): <https://e-commerce-six-gamma-65.vercel.app>

## Education

---

### Bachelor's in Information Technology Engineering

*Al-Baath University, Syria (2022 – Expected Graduation: 2027)*

*Expanding skills and knowledge in IT engineering.*

## Skills

---

### Technical Skills:

- **Markup & Styling:** HTML5, CSS3, Bootstrap, Tailwind CSS, Styled Components.
- **JavaScript & Frameworks:** JavaScript (ES6+), React.js, Next.js, Redux, Redux Toolkit, TypeScript.
- **Responsive Design:** Proficient in creating mobile-first, responsive web applications.
- **Other:** Problem-Solving, Multi-language-Support

**Tools:** version control(Git), Chart.js, i18next, Shadcn/UI, Figma for reviewing and implementing UI/UX designs.

**Soft Skills:** Adaptability, eagerness to learn, time management & multitasking, attention to detail, good communication skills.

## Languages

**Arabic:** Native

**English:** Very good

## Goal

---

Aspiring to enhance my skills in creating engaging and user-friendly web experiences. Eager to collaborate with experienced developers and contribute creatively to projects, aiming to grow as a proficient front-end developer.
