SUMMARY

Highly motivated and detail-oriented Front-End Developer with two years of experience in building responsive and user-friendly web applications using React.js, JavaScript, HTML5, and CSS3. Skilled in translating design wireframes and user requirements into efficient, clean code. Proficient in key React tools like Hooks and React Router, with a growing expertise in performance optimization and responsive design. A fast learner and enthusiastic about staying updated with the latest web technologies and best practices. Collaborative and adaptable, with experience in Agile teams and a strong passion for creating seamless user experiences.

Projects

Front-End Developer (Self-Initiated Projects): Jan 2023 – Oct 2024

Project Name: *Modern E-commerce Platform*

Description: A full-stack e-commerce platform independently developed, featuring 3D product displays (Three.js) and animations (Framer Motion). Integrates real-time payments (Stripe), secure authentication (Firebase), sales analytics (Chart.js), and a responsive UI (Tailwind CSS). Engineered state management (Redux Toolkit) and API integration (Axios) for seamless performance.

Technologies: React.js, Three.js, Chart.js, Firebase, Framer Motion, Redux Toolkit, Stripe, Axios, Tailwind CSS, React-Toastify

Key Contributions: Sole Developer & Designer: Built entire architecture, UI/UX, and functionality from scratch. Immersive Visuals: 3D product visualizations (Three.js) and animations (Framer Motion). Secure Backend: Payment gateways (Stripe) and real-time data sync (Firebase). Performance: Streamlined state management (Redux Toolkit) and API efficiency (Axios).

Project Name: *React Admin Dashboard*

Description: An interactive admin dashboard built with React.js, integrating react-router-dom for routing, Framer Motion for smooth animations, Tailwind CSS for responsive styling, and Recharts for dynamic data visualization. The dashboard allows users to manage and visualize data seamlessly while offering an efficient and user-friendly experience.

Technologies: React.js, React-Router-Dom, Framer Motion, Tailwind CSS, Recharts.js

Key Contributions: Developed a responsive admin interface, implemented animated transitions with Framer Motion, added dynamic charting capabilities using Recharts, and optimized the dashboard for seamless navigation with React Router.

WORK EXPERIENCE

Front-End Developer Intern: Sputix | Nov 2024 – Present

- Collaborating with the development team to build a scalable web application for [briefly describe the project, e.g., e-commerce, dashboard, etc.].
- Contributed to building reusable components and maintaining code quality using React.js
- Assisted in implementing state management using Redux and React Router for seamless navigation and data flow.
- Participated in Agile workflows, including daily stand-ups, sprint planning, and code reviews, ensuring timely project delivery.
- Gained hands-on experience in integrating third-party APIs and optimizing application performance

Education

Bachelor's in Information Technology Engineering
Al-Baath University, Syria
2022 – Expected Graduation: 2027

Skills

Technical Skills

- **Markup & Styling:** HTML5, CSS3, Bootstrap, Tailwind CSS.
- **JavaScript & Frameworks:** JavaScript (ES6+), React.js, Next.js, Redux, Redux Toolkit, TypeScript.
- **Version Control:** Git (GitHub),(GitLab).
- **State Management:** React Context API, Redux Toolkit.
- **Responsive Design:** Proficient in creating mobile-first, responsive web applications.

Tools

- Git & GitHub & Gitlab for version control and collaboration.
- npm and Yarn for package management.
- Figma for reviewing and implementing UI/UX designs.

Soft Skills

- Adaptability and eagerness to learn new technologies.
- Time management and the ability to handle multiple tasks.
- Effective communication and teamwork in Agile environments.
- Attention to detail in coding and design implementation.

Languages

Arabic: Native

English: Very good
